

**KINGSE  
SCHOOL**

## **Careers Education, Information, Advice and Guidance**

### **Rationale:**

A Career is a personal journey through an assortment of opportunities that include learning, working and career breaks.

Careers Education, Information Advice and Guidance (CEIAG) is about helping young people to build knowledge and develop self-help skills that will enable them to maximise the opportunities available to them throughout their life. The programme will emphasise the links between living, learning and earning, and the effect a decision in one of these elements has on the others. This will include managing change and dealing with success, disappointment and the unexpected. Young people need to be aware that they are entering an adult world where situations frequently change, so they need to be flexible.

### **Principles:**

The programme at Kingsdown School reflects the latest National Guidance for CEIAG and draws upon the following references in particular:

Careers guidance and access for education and training providers:

[Statutory guidance for governing bodies, school leaders and school staff, October 2018](#)

The careers programme is designed to meet the 8 Gatsby Benchmarks:

**Benchmark 1:** A stable careers programme

New requirement to publish information about the careers programme

**Benchmark 2:** Learning from career and labour market information

**Benchmark 3:** Addressing the needs of each pupil

- Targeted support for vulnerable and disadvantaged young people
- Information sharing

**Benchmark 4:** Linking curriculum learning to careers

**Benchmark 5:** Encounters with employers and employees

**Benchmark 6:** Experiences of workplaces

**Benchmark 7:** Encounters with further and higher education

- New legal duty: access to providers of technical education and apprenticeships

**Benchmark 8:** Personal guidance

### **Entitlement**

Students are entitled to CEIAG which meets professional standards of practice and is both personalised and impartial. It is integrated into students' experience of the whole curriculum and based on a partnership with students and their parents or carers. The programme is structured to deliver explicit learning outcomes, raise aspirations, challenge stereotyping and promote equality and diversity.

The careers programme is designed to meet the needs of the students at Kingsdown School to ensure progression through activities that are appropriate to students' stages of career learning, planning and development. The primary aims of the Careers Education and Guidance programme are to:

- Help young people develop an understanding of their own and others' strengths, limitations, abilities, potential, personal qualities, needs, attitudes and values
- Help young people investigate opportunities for further learning and employment, make decisions and manage transitions across key stages

- Ensure that, wherever possible, all young people leave the school with employment, further education or training.

CEIAG at Kingsdown aims to provide students with the skills, knowledge and understanding to support the 3 core aims of the CDI framework for careers, employability and enterprise education:

- 1) Developing yourself through careers, employability and enterprise education
- 2) Learning about careers and the world of work.
- 3) Developing your career management and employability skills.

### **The Wider Contribution of CEIAG:**

- **Literacy:** Careers Education will help learners to develop skills in accessing, selecting and understanding information, research, careers related vocabulary, recording their ideas and information and their communication in 1 to 1 and small group settings (speaking and listening).
- **STEM subjects:** The careers champion collaborates with the Science, Maths and Technology departments to provide learners with experiences linked to STEM subjects. This experience is organised in conjunction with external partners and companies giving students experience of the work place.
- **ICT:** Learners are encouraged to use ICT. Appropriate use of the internet, and dedicated software programmes (There are direct links to information, local further education, higher education, and job finding skills sites.

### **Special Educational Needs:**

- The Careers Champion will identify students in most need of support through liaison with the SENCO and Year 10 and 11 offices.
- **Key Skills:** Elements of the CEIAG programme will raise learners' awareness of employability skills and their relevance to future working life.

### **Implementation: Management**

Responsibilities are spread between the Assistant Headteacher with oversight of CEIAG and the Careers Champion. They plan, co-ordinate and evaluate the careers programme.

Heads of departments and progress leaders are consulted to ensure appropriate coverage of careers themes in the PD programme, tutor time activities and in applied subjects across the school. All subjects have a focus on and link to career development and employability learning. This is co-ordinated through the work of the Careers Champion and prioritised through the School Improvement Plan.

### **Staff roles:**

The Careers Champion will provide individual guidance and support and is responsible for updating of careers information.

Tutors champion their students through the tutor careers programme. They have important conversations about post 16 options as well as linking progress in lessons to future careers.

Subject teachers, support staff, other adults (relate other elements of their lives to careers decisions)

**Careers Guidance:** The role of our Careers Champion is to help young people apply the knowledge and skills they have learnt to make realistic decisions.

The young person will have ongoing 1 to 1 guidance discussions with their tutor throughout their time in school. However, learners may wish to have more detailed guidance with the school's Careers Champion. The work of the Careers Champion is profiled through assemblies, during tutor time and Personal Development lessons. Learners would need to ask to be referred through their tutor. Guidance interviews will take place in the interview room that is part of the Careers Resource Centre.

In Year 9, all those learners who are on the SEND register or are identified as Disadvantaged or have particular problems preventing them from participating fully in the school curriculum will have a guidance interview.

In Year 10, a focus group of learners in most need of guidance from the Careers Champion is identified with help from tutors using pre-agreed criteria. These learners will be seen by the Careers Champion in the latter part of Year 10.

In Year 11, learners who have not seen the Careers Champion will be given the option to self-refer themselves for individual guidance. Follow up interviews will also be arranged for all those seen in Year 10 who still require guidance.

- **Information:** comprehensive, reliable and up-to-date information is available to all students in the Careers Resource Centre. Information is available on a full range of occupational areas as well as for choosing courses, relationships, finance, health issues, and wider interests. The Careers Resource Centre is maintained by the Careers Champion. The careers online blog is kept up to date by the Careers Champion, in conjunction with the school's ICT support team.
- **Action planning, academic tutoring, recording of achievement:** learners review their progress and set targets with their tutors as often as possible, during personal development lessons and 1 to 1 reviews.
- **Assessment:** learning outcomes are linked to the Gatsby Bench marks. Students experience of the Benchmarks is tracked by the Careers Champion.
- **Resources:** CEIAG is funded through an annual allowance. Sources of external funding are applied for when they are available.
- **Staff Development:** The Careers Champion will update the school on latest developments through training courses on a regular basis. They in turn organise in-house training and updates with all appropriate staff. Training needs of the Careers Champion, tutors and careers teachers are reviewed annually.
- **Monitoring, review and evaluation** An annual cycle of planning and review is undertaken. Annual Improvement and Maintenance Plans have to be submitted for consideration in September for the following academic year; review of previous year's plans takes place in the Autumn Term with the Headteacher. Review takes place through student feedback (focus groups), student questionnaire, tutor team meetings, careers steering group meetings, annual review meetings and informally.
