

WHAT ARE T LEVELS?

Post-16 technical education

What are T Levels?

T Levels are qualifications combining classroom learning, alongside an industry placement. They are designed for young people as an option following GCSEs (post-16) and are taught in schools and colleges.

KEY FACTS

- They last for 2 years.
- They are equivalent to three A-levels.
- They attract UCAS points.
- They have been created alongside employers.
- They include an 'industry placement' of at least 45 days.
- For anyone not quite ready, there is a pre-T Level foundation year.
- Students will receive a nationally recognised qualification.

How is a T Level structured?

80% of the qualification is classroom-based and 20% is spent undertaking an industry placement with an employer in the workplace. Your training provider will be responsible for finding the employer(s) that will provide your 45-day industry placement.

Which T Levels are available?

There are currently 20 T Level subjects available.

Digital:

- Digital Software Development
- Digital Data Analytics
- Digital Support and Security

Education and Early Years:

- Education and Early Years

How can I find out which providers offer T Levels?

The government has created a really useful website where you can enter your postcode and search for T Level providers that are local to you.

Here's what you can do:

- ➔ Visit the website: tlevels.gov.uk/students/find
- ➔ Enter your postcode.
- ➔ Look through the list of providers in your local area.
- ➔ Visit provider websites to find out more about their T Level courses and any upcoming open days.

What is the difference between T Levels and apprenticeships?

Apprenticeships are real, paid jobs, suitable for students who know which job role they want to pursue. T Levels are largely classroom-based (80%) and contain a substantive industry placement (approximately 20%).

How are T Levels graded?

Students who complete their T Level receive a nationally recognised certificate which shows their overall grade and a breakdown of what they have achieved. Students who meet all of the requirements of their T Level are awarded an overall grade of either Pass, Merit, Distinction or Distinction*. Students who do not pass all elements of their T Level receive a T Level statement of achievement, which will show the elements they have completed.

What is the T Level Foundation Year?

The T Level Foundation Year is a one-year, level 2 study programme intended for students who have the 'potential to progress' onto a T Level programme. This is a great option for someone who would benefit from additional study time and preparation before doing a T Level. It provides relevant knowledge, practical and study skills along with English, maths and digital skills. Check with the T Level provider if they offer this.
