

17<sup>th</sup> December 2018

Dear Parent/Carer

**Year 11 Parents' Information Evening for Science**

**Thursday 17th January 2019**

**6pm to 7pm – Main Hall**

With Year 11 Mock examinations over, our teachers have now marked these scripts and given your child detailed feedback. Your child is now aware of the key areas that are a strength as well as the areas where they still have gaps. In Science, we have analysed the performance of our students and will be putting in place a clear strategy to ensure that each and every student achieves, or indeed exceeds, their expected level of progress.

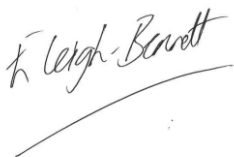

By way of supporting our students, we will be running a Science evening to share with you how your child can ensure that they achieve their target grade. This session will provide you with:

- an overview of the strategies shared with your child and help you to understand how you can support them in their preparations for Science GCSE
- some practical tips to support them at home, including the use of Tassomai

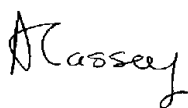

The event will take place in our Main Hall at 6pm. I am sure you will see how important and useful this session will be. Additionally, members of the Science department will be available on the evening to answer any questions you may have.

I look forward to seeing you and thank you in advance of your support. Together we will ensure that your child has every opportunity in securing the best possible grades in their Science examination in 2019.

Yours sincerely

**Mrs E Leigh-Bennett**  
Headteacher

**Mrs A Cassey**  
Head of Science

**Mrs C Edwards**  
Director of Learning
